

Eye-WALK

Don't keep your trees a secret

Help... View... Share...

***Help your visitors get the most
from your trees, shrubs and features
with Eye-WALKS the Interactive Walks
from AIT Spatial Ltd***

Tel: +44(0)1462 816648
Email: info@aitspatial.co.uk

Using *Eye-WALKS*, help your visitors get the most from your trees, shrubs and features with the Interactive Walks.

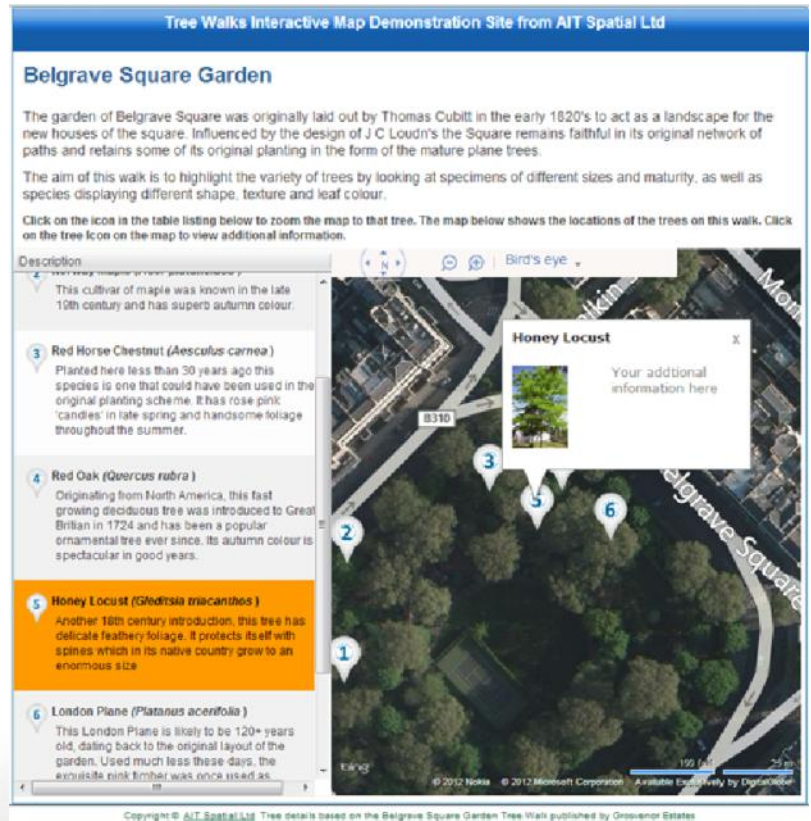

View the location of each planting on the interactive map, including street maps and aerial views.

Share details about each planting/object including:

- *History*
- *Origin*
- *Size*
- *Age*
- *Photographs*
- *Dedication*

Location aware the maps can display your current location automatically*.

Customised to your needs, we only need the details you want to share and we will provide the Interactive Walk on our hosted web servers.

Experience the live demo at www.eyesolutions.net/eyewalks

Eye-WALKS is part of the 'Eye' range of mapping solutions from AIT Spatial Ltd: ***Eye-TREE, Eye-TREE Lite*** (as used in the Westonbirt Interaction Map), ***Eye-ASSET, Eye-SPACE (BIM)*** and ***Eye-INCIDENT***.

* location awareness is the location returned by supported web browsers and devices. The location derived may not be your actual physical location but that of your Internet connection.

Contact AIT Spatial for more details on *Eye-WALK* or associated software
